Inquiries should be directed to Mr. Brandon Boerio at 769-4350 ext. 1020.

Board of Education
Clovis Municipal Schools

/s/ Mr. Paul Cordova, President

SPECIFICATIONS

Lot #1 - Hammond B3 Organ - Serial #60526

This is an original Hammond B3 Organ, serial number 60526. According to a cross reference of similar serial numbers at tonewheelgeneral.com, we estimate this organ was built in 1956. Cosmetically this organ is in good shape with a few scratches on the legs and body of the organ. An original can of oil is still in the organ and all vacuum tubes appear to be in good condition. The electric starter for the synchronous motor engages and the motor turns freely by hand, but is not running at this point. When connected to the Leslie speakers, the speakers turn on and activate through the use of the tremolo switch. All internal wiring appears to be in good condition, the draws move freely, and all knobs and switches are intact and working order. The organ is currently sitting on a carpet riser with casters that will be included with the sale of the organ.

Lot #2 - Two (2) Leslie Rotary Organ Speakers - Model 31H, Serial #8762 and #8931

This is a pair of Leslie Rotary Organ Speakers, Model 31 H, serial #8762 and #8931. According to a cross reference of similar serial numbers at tonewheelgeneral.com, we estimate these speakers were built in 1957. Both appear to be in good condition with some minor scratches and wear. These speakers come with the two cables needed to connect them to the Hammond B3. Speaker #8762 will turn on and both tremolo motors are working. Speaker #8931 will not turn on, but appears to be in good condition.

Lot #3 - Wurlitzer "Centura" Organ - Model 805, Serial #1140839

This is a Wurlitzer "Centura" Organ, model 805, serial #1140839. This organ is in good working condition. All draws and instruments are in good working order. This organ has two 61-key keyboards as well as a small "synth" keyboard. All bass pedals work and the bench and original owners manual is included. The organ is currently sitting on a carpet riser with casters that will be included with the sale of the organ.

SUBMITTAL SHEET
SALE OF ORGANS & SPEAKERS

The items to which this sheet is attached represents our bid as described therein. We certify that we have read the conditions of the bid and that we understand them fully. We understand that any discrepancies in this invitation which come to our attention must be mentioned to the Clovis Municipal Schools prior to the opening of bids or adjudication will be made by executive decision.
